## EXPERIENCE

### Apprentice

SABESP | 2018 - 2020

I worked in the financial department of SABESP in Lins, where I assisted in organizational control and the submission of physical documents. I also participated in creating digital documents using Word, Excel, and PowerPoint templates.

### Trainee

Linsfibra Internet Provider | 04/2020 - 09/2020

I assisted in the control and maintenance of physical devices, such as Optical Network Units (ONUs). I investigated the causes of internet connection problems and suggested possible solutions for the company's clients' connections.

### IT Assistant & Developer

ViaRondon | 03/2024 - Present

At ViaRondon, I contribute to the development of internal solutions, including the creation of pages using technologies such as JavaScript and PHP for database statistics analysis and system monitoring studies. I am responsible for monitoring devices using Zabbix, ensuring the identification and resolution of outages. I perform machine maintenance, including restorations and backups, as well as providing remote support for equipment on highways. Additionally, I manage email security by monitoring the company's Anti-Spam system, and I am responsible for the maintenance and monitoring of antivirus software on employee machines, conducting scans and preventing threats. Furthermore, I handle ticket management and support to ensure the continuous operation of the IT infrastructure.
